34. **RIGHT-OF-WAY:** Areas or portions of areas of land dedicated, used, or prescriptively used for a road and along the side of the roadway. A thoroughfare or path reserved or established for public use or reserved for or occupied and used by a railroad or a public utility.
35. **SIDEWALK OR WALKWAY:** That portion of a dedicated right-of-way or easement intended for pedestrian use only.
36. **SHARED USE PATH OR PATHWAY:** That portion of a dedicated right-of-way or easement intended for pedestrian and/or non-motorized use only.
37. **STREET:** A public way for vehicular traffic which affords the principal means of access whether designated as a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, lane, place, or however otherwise designated.
38. **STREET, THOROUGHFARES:** Arterial streets which are used primarily for heavy traffic, and serving as an arterial traffic way between the various districts of the community, as shown on the Comprehensive Plan.

45. **SUBDIVISION:** Any division or redivision of a lot, tract, or parcel of land within the city or its extra-territorial jurisdiction into two (2) or more lots, tracts, or parcels of land for the purpose of transfer of ownership, building development, the creation of streets and/or rights-of-way, or any other purpose; except that:
 - a) The sale or exchange of parcels of land to or between adjoining property owners where such sale or exchange does not create additional lots shall not be deemed a subdivision.
 - b) The allocation of property by court decree in settling the estate of a decedent or in partitioning land among owners shall not be deemed a subdivision.
 - c) The unwilling sale of land as the result of legal condemnation procedures, or the acquisition of street rights-of-way by a public agency in conformance with the C shall not be deemed a subdivision.
46. **SWALES:** A drainage system for storm runoff which approximates natural drainage patterns. For example, shallow drainage ways are provided beside streets and, if necessary, a ponding area is provided. Thus, use of a natural percolation is emphasized, and the need for conventional curb, gutter and storm drains are minimized or eliminated. SECTION 5. - APPROVAL OF PLATS

Plat approval as required herein and in conformity with statutory authority within the Planning Commission's territorial jurisdiction, shall be by the Planning Commission, with confirmation approval by the City Council. In all cases where land is offered for dedication for streets, utilities, or other public purposes, the governing body affected shall act to accept or reject the offer of dedication and the deed for the fee to such lands. The approval of other jurisdictional Planning Commissions shall be required on all plats of land situated within the unincorporated jurisdiction of the City of Arnegard, North Dakota.

SECTION 6. - PROCEDURE FOR APPROVAL OF PLATS

All subdivision sketches submitted for approval, as well as all plats, preliminary and final, shall be prepared in conformance with the provisions of this ordinance and in conformance with the Arnegard Comprehensive Plan. The subdivider shall be responsible for such conformance.

Preliminary Steps:

1. Before preparing the general plan of a subdivision, the subdivider shall consult informally with the City Engineer concerning the relation of the property to existing conditions, future plans, and community facilities, utilities and services.
2. It will be the duty of the Planning Commission to discourage the subdividing of lands that are far in advance of the needs of the community; or that by their location cannot be efficiently served by public utilities, schools, fire protection, police protection or other municipal service; or that are located in areas subject to flooding or that are topographically unsuitable for development; or that for any other reason are unwisely or prematurely subdivided. It shall also be the duty of the Planning Commission to encourage the replatting of lands deemed to be unsatisfactorily subdivided or are underdeveloped.
3. It shall also be the duty of the Planning Commission to encourage the coordinated platting of adjacent small parcels of land.

Preliminary Plat Approval:

The subdivider shall apply in writing to the Planning Commission for tentative approval of the preliminary subdivision plat.

1. Eight (8) prints of the preliminary subdivision plat shall be submitted to the City Engineer for the Planning Commission at the City Hall at least twenty-one (21) days prior to the Planning Commission meeting at which the same shall be considered. The preliminary plat shall comply with provisions of Section 10 of these regulations. Fees charged for the filing of the preliminary subdivision plat shall be paid in full, on the basis of the estimated number of lots created, at the time of application for tentative approval. The fee for the submission of a plat is; **an amount fixed by ordinance or resolution plus; an**

City of Arnegard, North Dakota

amount fixed by ordinance or resolution for each newly created lot. The City Engineer shall prepare a report, thereon; setting out whether or not said plat meets the requirements of the City Ordinance, and the City of Arnegard Comprehensive Plan. City Engineer shall present said report together with recommendations thereon, to the next meeting of the Council, filing as herein set out.

2. After receipt of the application for preliminary plat approval, the Engineer shall give notice of a public hearing on such proposed subdivision by advertising the time and place of such hearing in a newspaper of general circulation in the City of Arnegard or in the county concerned at least ten (10) days prior to the date of such hearing. The subdivider will furnish the name and address of the owner of the land, or his agent, at the time of application, and the secretary of the Planning Commission shall send to said address by registered mail a notice of the time and place of such public hearing not less than five (5) days before the date fixed for the hearing. The public hearing may be held at a regular meeting or special meeting of the Planning Commission.

3. Within sixty (60) days after the submission of a plat, the Planning Commission shall approve or disapprove it. If the plat is not approved or disapproved within such time, it shall be deemed to have been approved, and a certificate to that effect shall be issued by the commission on demand. The applicant, however, may waive the requirement that the commission shall act within the sixty (60) days and consent to an extension of such period. The grounds upon which any plat is disapproved shall be stated upon the records of the commission.

4. Upon the making of its determination, the Planning Commission shall embrace the same within a motion, which shall include all conditions it required for approval, or conditions upon which approval will be granted, and shall set forth the reasons for the approval given. A copy of the motion shall be sent forthwith to the subdivider and a copy thereof to the City Council together with the plat if it is approved, conditionally or otherwise.

5. Approval shall be effective for a maximum period of twelve (12) months, unless upon application by the developer, an extension is granted. If the plat or portion thereof has not been submitted for final approval within the time limit, a preliminary plat must again be submitted for approval.

6. The City Council shall review the preliminary plat and the recommendations of the Planning Commission at their next regular meeting following the action of the Planning Commission and shall take action on such plat and recommendations within sixty (60) days. Failing to do so, it shall be considered an approval of the plat and a certificate to that effect shall be issued by the City Council on demand. Procedures for approval, approval with conditions or denial shall be as prescribed by the Planning Commission.

Final Approval:

After the preliminary plat has been approved, and the subdivider determines to proceed to secure final approval of all or a part thereof as a final plat, the final plat shall be submitted to the Planning Commission with a letter requesting such approval and describing the proposed

City of Arnegard, North Dakota

development schedule for the subdivision.

1. One (1) Mylar original and two (2) reproducible copies of the final plat shall be submitted to the City Engineer at least fourteen (14) days prior to the Planning Commission meeting at which the same shall be considered. The application shall be accompanied by such other documents and materials as may be required by these regulations or by the City Engineer. The Engineer shall prepare a report thereon setting out whether or not said final plat is in substantial agreement with the preliminary plat and if not, in what particulars it varies therefrom; whether or not it conforms to the requirements of State law and the City Ordinance, and that the final plat meets all the conditions as attached to the approval of the preliminary plat. At this time an adjusted filing fee shall be determined and any additional fee shall be paid.
2. If the Planning Commission approves the subdivision, such approval will be entered upon the original and copies of the plat and will be signed by the Chairman of the Planning Commission. If the Planning Commission disapproves the subdivision, such action, together with the reasons therefore, will be entered in the official records of the Planning Commission and a copy of such record will be sent to the subdivider. If it shall determine that it cannot approve it unless certain conditions are attached, it shall by motion set forth the conditions for approval and forthwith send a copy of such conditions to the subdivider, and all further action on the plat shall be suspended until the subdivider shall respond thereto, provided that if no further action is taken by the subdivider within a thirty (30) day period, the plat shall be deemed to be disapproved.
3. The Planning Commission will act upon all requests for final approval of a subdivision within thirty (30) days after application for such approval is made. Failure by the Planning Commission to act within such period shall be deemed as approval of the subdivision and the Secretary of the Planning Commission shall issue a certificate to the effect upon demand. However, the subdivider may waive this requirement and agree to an extension of this period.
4. Upon final approval of a subdivision involving the creation of new streets, the widening, decreasing or vacation of existing streets or alleys, or the creation, enlargement or decreases of other lands devoted to public use, the Planning Commission shall thereby and without further public hearing have approved such change in streets, alleys, or public lands as an amendment to the Comprehensive Plan. The Planning Commission will transmit notice of such action to the City Council of the City of Arnegard together with appropriate recommendations concerning the acceptance of dedicated streets and alleys, or the vacation thereof, and of the acceptance of other dedicated lands. In the case of streets, alleys and public lands lying outside the City of Arnegard, notice of the action of the Planning Commission and appropriate recommendations will be transmitted to the board of County Commissioners of McKenzie County, the Township Board, and other bodies having jurisdiction.
5. Final action by motion on the final plat shall be communicated forthwith to the subdivider by the City Engineer for the Planning Commission, and a copy of the motion shall be sent to the City Council, together with the plat, and such other data as the Council shall determine.

City of Arnegard, North Dakota

Submittal to the City Council:

1. Upon the adoption of the motion of approval or disapproval by the Planning Commission, the final plat shall come before the City Council for review.
2. The Council shall have the authority to hold such hearings on the final plat as it shall determine, and upon such notice as it shall provide.
3. If the Council is not satisfied with the final plat as presented, it may: (a) disapprove the same; (b) set forth such conditions and requirements as it shall require to be fulfilled before the same is approved; or (c) refer the same to the Planning Commission which shall act thereon at the next meeting and report back to the City Council no later than sixty (60) days after the said action of the City Council.
4. If the City Council shall determine to accept the plat, it shall by resolution so determine, and the resolution shall provide for the acceptance of all streets, alleys, easements or other public ways, parks, and other spaces dedicated to public purposes.
5. The action of the City Council finally determining the matter shall be communicated to the subdivider, and if the plat be disapproved, reasons given by the Council for such determination shall be set forth.
6. A final plat that is approved by the City Council shall be filed by the City Engineer for record with the Register of Deeds of McKenzie County, within thirty (30) days after approval.

SECTION 7. - PLATS OUTSIDE CORPORATE LIMITS

Procedure for approval of preliminary and final plats of land outside of the corporate limits of Arnegard shall be the same as set forth in Section 6 of this Ordinance, except that one (1) copy of the preliminary plat shall be referred to the McKenzie County Commission, and one (1) copy to the affected townships with a request for their recommendations to be submitted to the Arnegard Planning Commission. The Arnegard Planning Commission shall consider such recommendations prior to taking action on the plat. If no such recommendations are received by the Arnegard Planning Commission within sixty (60) days, the plat shall be deemed approved by the County and the township.

SECTION 8. - VACATION OF A PLAT OF RECORD

Conditions: A subdivider or owner may make application to the Planning Commission to vacate any plat of record under the following conditions:

1. The plat to be vacated is a legal plat of record.
2. Vacation of the subdivision will not interfere with development of, nor deny access via public thoroughfare to, adjoining properties or utility services or other improvements.
3. Vacation of the subdivision will not be contrary to the Arnegard Comprehensive Plan.
4. Procedure: Shall comply with vacation proceedings as outlined in Chapter 40-50.1 of

the North Dakota Century Code. The land owner or owners shall present a proposal to the Planning Commission, containing the legal description and plat of the subdivision and calling for vacation thereof. The Planning Commission shall study the proposal and shall send recommendations to the City Council. The City Council shall approve or deny the proposal. If the proposal is approved, it shall then be recorded in the office of the County Recorder. All fees for the recording of such vacation shall be paid by the subdivider.
